

## **10111 - Praying in a place under which there is a sewage pipe**

---

### **the question**

A

man has an apartment in which there is a bookstore containing copies of the Holy Qur'aan. But there is a sewage pipe which passes beneath this apartment. Is it permissible to pray and recite Qur'aan there or not?

Please advise us, may Allaah reward you with good.

### **Detailed answer**

There is nothing wrong with this so long as (the apartment) is separate (from the pipe). Al-Imaam al-Muwaffaq, the author of al-Mughni and of al-Sharh

al-Kabeer, said: It is permissible to use the area above the roof of the pipe and similar places, because the pipe is beneath and there is a roof over it. It is not allowed to pray in toilets and similar places, but according to the correct view, it is permissible to pray and read Qur'aan on the roof over them, as we have stated above. Some scholars said that it is not permissible to do that, but the correct view, in sha Allaah, is that it is OK. And Allaah knows best.
