

11013 - Is it haram to put a bag over the private parts of someone who suffers from incontinence?

the question

What is the ruling on a person who is in ihram and who suffers from incontinence putting something over his private parts – such as a bag – so that the najaasah (impurity) will not spread? Is this one of the things that are forbidden in ihram?

Detailed answer

We put this question to Shaykh Muhammad ibn Saalih al-'Uthaymeen (may Allah preserve him), who replied that this is not one of the things that are forbidden in ihram.

And Allah knows best.
