

## **22949 - Ruling on a woman's continual discharge**

---

### **the question**

I have a continual discharge – how can I pray?

### **Detailed answer**

If this discharge comes and goes, and usually stops during the times of prayer, then you can delay the prayer until the time when this discharge ceases, so long as there is no fear that the time for the prayer may come to an end. If you fear that the time for prayer will end, then do wudoo', apply a pad of cotton, and pray.
