

## 30 - Using clothing of the kuffar (unbelievers)

---

### the question

What is the ruling on using clothing of the kuffar (unbelievers)?

### Detailed answer

The use of clothing of the kuffar (unbelievers) which they have worn is permissible as long as there is no known najasa (impurity) regarding it, because the default for things in general is tahaarah (purity) and it is not overridden by mere doubt. Likewise, what they have woven and dyed and what has been imported from their countries are also permissible, as long as they do not comprise anything haram (forbidden), because the Prophet (peace be upon him) and his sahaba (his companions) wore items the kuffar had woven and made, and likewise the Prophet (peace be upon him) wore a Roman jubba (a long outer garment, open in front, with wide sleeves).
