820 - Benefits of the Internet in spreading knowledge

the question

Assalammualaikum

I would like to know, from your point of view, does the Internet bring any benefits

to the Islamic society in terms of spreading information to the user???

Thank You.

Detailed answer

All Praises Are Due to Allah.

The answer to your question is in what you see and not in what you hear. I don't think the issue

needs to be addressed; however, your question must be regarding the negative and unlawful

things found on the Internet, and not the positive aspects as they are clearly evident. There are in

fact many down sides in the Internet, which contain great evil and this is what pushes one to think

of the necessary ways to fix the ills on the Internet. It is the obligation of the experts from

amongst the Muslims to work on this issue.
